ABOUT ME

Data Scientist - Generative AI/ML Developer

Junior Data Scientist with a Master's degree in Data Science from Rome Business School and a background in commercial and industrial environments. Hands-on experience developing Machine Learning and Deep Learning solutions for fraud detection, churn prediction and customer revenue forecasting. Developed and deployed a Retrieval-Augmented Generation (RAG) assistant using LangChain, Anthropic Claude, ChromaDB and Streamlit. I have a strong interest in Machine Learning, Generative AI and AI Engineering.

Here you can find my Portfolio web site: https://sighanocel.github.io/My-data-science-project/

PROJECTS

[06/2026 – 08/2026] **Junior AI Specialist**

RAG Assistant for the Capstone Project

I developed a Retrieval-Augmented Generation (RAG) assistant that allows users to ask questions about my Data Science capstone project and obtain answers grounded in the project report.

The application combines:

• LangChain / LCEL

• OpenAI

• ChromaDB

• Document retrieval and embeddings

• Conversational interaction

• Streamlit deployment

Business impact: turning a large analytical report into an interactive knowledge assistant, making project information easier and faster to access.

Try the deployed app at the following link: https://capstoneragproject-nfbzm2mkjjdx4azcchstta.streamlit.app/

Explore the notebook at this link: https://github.com/SighanoCel/capstone_RAG_project/blob/main/notebooks/Capstone_project_LCEL_Memory.ipynb

[05/2026 – 07/2026] **Junior Data Scientist/Risk Management**

Bank Transaction Fraud Detection with CatBoost Classifier

I developed a fraud detection solution using CatBoost Classifier to identify potentially fraudulent banking transactions.

The project includes:

• Data exploration and preprocessing

• Handling categorical variables and class imbalance

• Precision-Recall and ROC-AUC evaluation

• SHAP-based model explainability

• Business-oriented threshold and risk analysis

Business impact: helping financial institutions prioritize suspicious transactions, reduce potential losses and improve fraud investigation efficiency.

The model is Deployed as an interactive Streamlit application.

[03/2026 – 06/2026] **Junior Data Scientist/ CR Management**

Bank Customer Churn Prediction with TensorFlow/Keras

I built a TensorFlow/Keras Sequential neural network to predict the probability of customer churn in the banking sector.

Beyond prediction, I converted churn probabilities into risk segments and connected the model to a retention and ROI (Return On Investment) analysis.

Business impact: helping banks identify customers at higher risk of leaving and prioritize retention actions based on potential business value.

The Neural Network Model is Deployed as an interactive Streamlit application.

WORK EXPERIENCE

ROME BUSINESS SCHOOL (RBS)

City: Rome | **Country:** Italy

[10/12/2025 – 13/03/2026] **Data Scientist Intern**

Data & Business Intelligence Analysis with Python

Analyzed 36 months of revenue generated by a logistics and transportation company from 40,000 customers, identifying revenue concentration, customer, sector and geographic dynamics, and forecasting future revenue trends.

Business Impact: Identified high-value clients, early revenue-risk signals and high-impact sector/geography segments, supporting targeted client retention, resource allocation and data-driven strategies to strengthen revenue resilience and sustainable growth.

As part of the project, i developed a **RAG/LLM-powered assistant** and deployed it as a **Streamlit application** enabling stakeholders to interact with and retrieve detailed information from the project report.

Methods Used: EDA, Time Series Analysis, Machine Learning, Business Intelligence

Tools: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, RAG, AI Assistant

Explore the notebook at the following link : https://github.com/SighanoCel/My-data-science-project/blob/main/notebooks/Final_Capstone_business_analytics.ipynb

BUCHER HYDRAULICS

City: Reggio Emilia | **Country:** Italy

[11/07/2020 – Current] **Tool Procurement Specialist**

- Supervise tool design and procurement processes, ensuring alignment with production requirements.
- Maintain relationships with suppliers for company's custom tools development and manufacturing.
- Drive quotation follow-ups and pricing negotiation to optimize cost efficiency.
- Oversee tool room inventory, ensuring timely availability and efficient stock management.

Burani Interfood Spa

City: Reggio Emilia | **Country:** Italy

[04/02/2019 – 30/06/2020] **Purchasing and Sales Assistant**

- Managed and analyzed a portfolio of clients and suppliers,to extract insights from potential stakeholders.
- Processed and matched customer requests with supplier offers using ERP systems, ensuring data accuracy and consistency.
- Supported pricing decisions by analyzing cost components, including freight quotations and Incoterms, to improve margin visibility.

- Monitored end-to-end transaction data, identifying delays and discrepancies to ensure timely delivery.
- Contributed to risk assessment by tracking transactional data and supporting issue resolution in after-sales processes.
- Maintained and updated datasets related to orders, suppliers, and customers, ensuring reliable reporting and operational efficiency.

Cooperativa Sociale Dimora d'Abramo

City: Reggio Emilia | **Country:** Italy

[03/08/2017 – 29/12/2018] **Public Relations Assistant**

- Designed and produced multimedia content (brochures, posters) to support communication campaigns.
- Developed content for digital channels (website, newsletters, social media) to engage stakeholders.
- Maintained and analyzed partner and donor databases, generating insights to improve engagement and communication strategies.

EDUCATION AND TRAINING

[15/04/2025 – 25/04/2026] **Master Degree in Data Science**

Rome Business School & Universidad Internacional de Valencia https://romebusinessschool.com/it/

City: Roma | **Country:** Italy | **Field(s) of study:** Data Science

[08/10/2013 – 30/06/2016] **Bachelor Degree in Communication Sciences and Technology**

University of Ferrara www.unife.it

City: Ferrara | **Country:** Italy | **Field(s) of study:** Information and Communication Technologies

[08/2002 – 08/2010] **Baccalauréat A4**

Bilingual High School of Batcham

City: Batcham | **Country:** Cameroon

LANGUAGE SKILLS

Mother tongue(s): French

Other language(s):

English

LISTENING C1 **READING** C1 **WRITING** C1

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

Italian

LISTENING C2 **READING** C2 **WRITING** C2

SPOKEN PRODUCTION C2 **SPOKEN INTERACTION** C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DRIVING LICENCE

Cars: B

PROFESSIONAL SKILLS

Technical/Professional Skills

- Proficient in **Python** for **Machine Learning, Deep Learning and Data Analysis**
- Hands-on experience building LLM-powered applications using **OpenAI and Claude APIs, LangChain, and ChromaDB**, including Retrieval-Augmented Generation (RAG) pipelines and semantic document retrieval.
- Familiar with **business intelligence tools** (Power BI, Tableau) for data visualization.
- Familiar with **MySQL** for database management and data extraction.
- Familiar with **cloud-based solutions** (KNIME, Microsoft Azure) for data cleaning, workflow automation, and machine learning.

Link: https://sighanocel.github.io/My-data-science-project/

COMMUNICATION AND INTERPERSONAL SKILLS

Communication and Interpersonal Skills

- Flexibility and adaptability, and strong teamwork skills.
- Excellent team player with a collaborative approch towards colleagues and stakeholders.
- Proactive attitude with strong problem-solving abilities and goal-driven mindset.

ORGANIZATIONAL SKILLS

Organizational Skills

- Strong team-working skills with a collaborative approach.
- Ability to coordinate projects and manage people effectively.
- Familiarity with project management tools and methodologies.
- Maintains composure and efficiency under pressure, especially when meeting tight project deadlines.

PERSONAL DATA PROCESSING

Personal Data Processing

I consent to the processing of my personal information in compliance with EU Regulation 2016/679 (GDPR) for purposes related to my application.
